**CONDITIONS OF SALE – ROSCREA 2020**

1. Without prejudice to the foregoing rules it is hereby expressly declared that the seller by selling and the buyer by purchasing shall be bound by the rules notwithstanding the terms of any statutory enactment or custom or trade to the contrary.
- 2.
3. The auctioneer is judge of the sale to whom all disputes or differences of any kind which may arise at or in relation to the auction either between the seller and the buyer or amongst the bidders themselves shall be referred and his decision shall be final and binding on all parties.
4. Any dispute as to any matter of the settlement of which no provision was made in these rules shall be referred to an arbitrator to be appointed failing agreement between or amongst the parties by the auctioneers and the decision of the arbitrator so appointed shall be final and binding on all parties to the dispute. Any arbitrator under this clause shall be subject to the Arbitration Act for the time being in force.
5. The highest bidder to be the buyer and if any dispute arises between the bidders, the lot in dispute shall immediately be put up again and resold.
6. The purchaser must give his name and address in writing and pay the full purchase price for each lot at the fall of the hammer. (if required). In default of which the lots so purchased may immediately be put up again and resold.
7. No lots shall be removed from the premises until paid for in full.
8. All sheep offered for sale must be accompanied by a Registration Cert
9. Sheep will be sold in catalogue order.
10. Any sheep found to have an artificially blackened head, or a positive blood test for positive substances will be disqualified from the sale and must be returned to the trailer.
11. Purchasers and vendors to understand that, although every reasonable precaution will be taken to ensure the safety and welfare of the animals, the Auctioneer and the Irish Suffolk Sheep Society will not be responsible for loss or accident of any kind that may occur.
12. Should any question arise not provided for in the foregoing conditions, the decision of the officers of the Irish Suffolk Sheep Society will be final, from which there shall be no appeal.
13. Terms: all sheep sold in Euro plus 5% commission. No rams sold under €300.00. Ewe lambs €200.00. No bid under €10.00.
14. All shearlings must have been shorn in 2020.
15. Prospective buyers must satisfy themselves fully through inspection of that lot before making a bid and thereby accept the lot as it stands.
16. A red dot must be clearly marked on the shoulder of substitute any sheep.
17. All lots on the market from the 1st bid. When the Auctioneer's hammer falls, the vendor may accept or refuse the lot. The Vendor must say "yes" or "no" to the final bid before he/she leaves the ring.

13-14-35	Gregory Rossiter - Grange, Bannow, Co. Wexford

**Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.**

## Sheep Ireland EuroStars

### How to select a ram fit for purpose?

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

## EuroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals can not be compared to any other animals from a different flock.

### Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

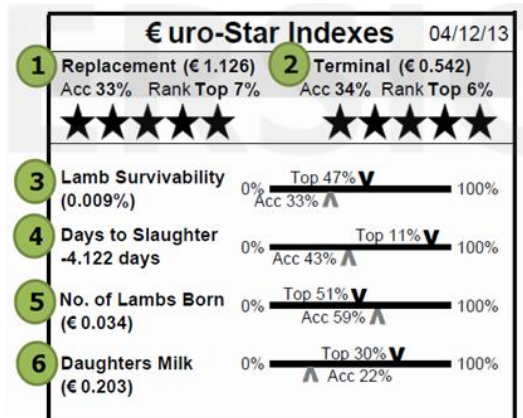

## Acc % (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example on previous page)

<b>Acc % parameters</b>	
<b>V.Poor</b> , 0% - 14%	<b>Poor</b> , 15% - 24%
<b>Fair</b> , 25% - 34%	<b>Good</b> , 35% - 49%
<b>V.Good</b> , 50% and above	

## Indexes & Traits

- 1) Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

## RamSearch.ie

The Sheep Ireland Online Ram search is also available at [ramsearch.ie](http://ramsearch.ie), you can use this tool to get the most up to date evaluations for a ram, to **search for rams by county, breed and current evaluation ratings**.
